

Offal Containment Conveyor Retrofit;

Volta belts complying with stringent veterinary demands and saving product

- ➔ Provides traceability on offal separation lines by isolating each individual set of organs and blood prior to biological tests.
- ➔ Continues to maintain superior hygiene on the line due to the ease and effectiveness of cleaning which prevents bacteria growing, even on the belt return side and on the pulleys.

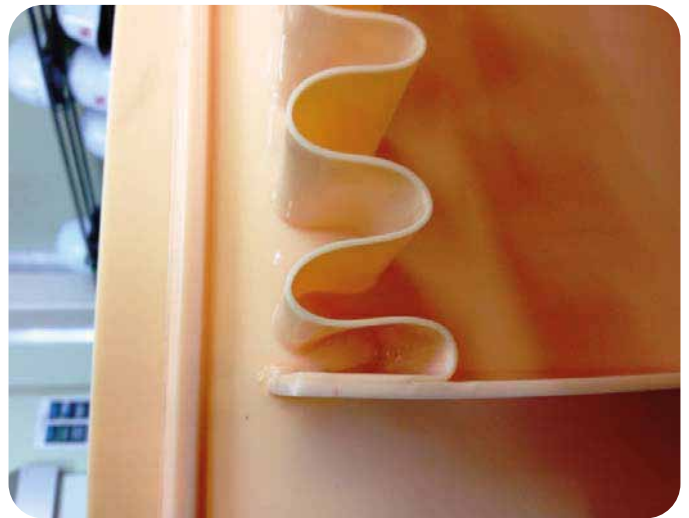

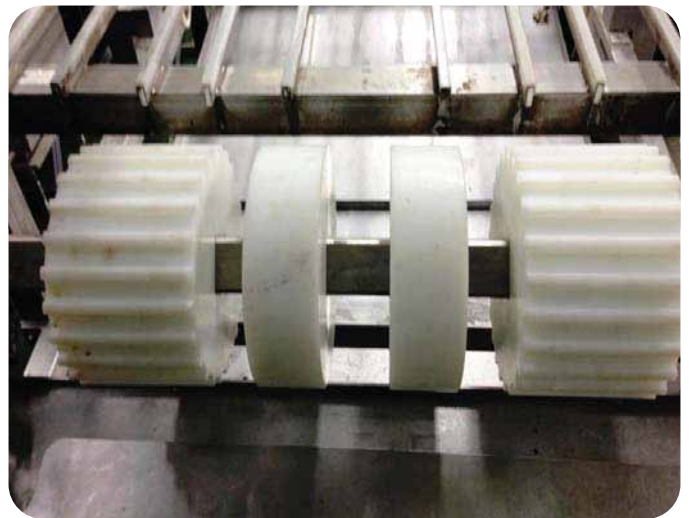

Volta Belting-Success Stories

Before
Conventional Ply Belting

After
Volta Homogeneous Belting
