

# Paying back the Investment

➔ **Company:**

Vegetable pickling.

➔ **Application:**

Conveying mixes of delicate/high value vegetables.

➔ **Challenge:**

Expensive and difficult cleaning process of original modular belts.

➔ **Solution:**

Volta FMB-3-SD-ITO50 and FMB-3-SD belts.

➔ **Result:**

Cleaning time reduced by 50% - projected factory saving; one full time worker.

Additional savings in water and water recycling costs.

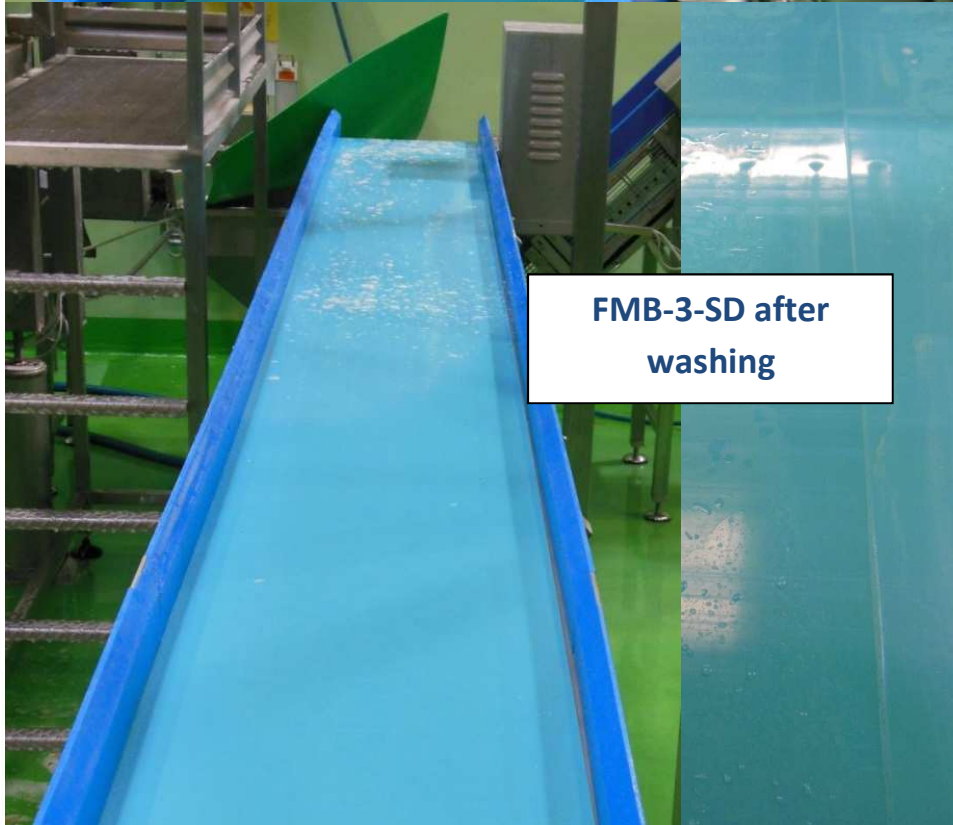

Entire factory moving to Volta with twelve modular conveyors changed in two years.

➔ **Additional Benefit:**

No loss of dried herbs between belt slats – improved product quality.

Hygienic Z-conveyor

FMB-3-SD after washing
